May 19, 2022

Mr. Colin Mitchell
Governmental Hazardous Waste Branch
Alabama Department of Environmental Management
1400 Coliseum Boulevard
Montgomery, Alabama 36110-2400

Dear Mr. Mitchell:

Enclosed for your review is the Risk Assessment Report Revision 1 for Organizational Maintenance Shop 28 (OMS 28), located in Mobile, Alabama. This Risk Assessment Report Revision 1, dated May 2022, replaces the previous Risk Assessment Report dated March 2019. This revised report addresses your review comments provided in your letter dated February 25, 2021. We responded to your review comments in our letter dated November 10, 2021, and you accepted the responses in your letter dated January 20, 2022. This revision incorporates the approved responses to your comments and also incorporates an update of the USEPA regional screening levels to the current values. Two hard copies and two CDs containing the Risk Assessment Report Revision 1 are provided for your use. A redline/ strikeout version of the text and an excel file listing the specific changes to the report will be emailed to you to assist you in your backcheck of comment incorporation.

If you have questions or require assistance, please contact me at 703-607-7955, queenie.m.mungin-davis.civ@army.mil.

Sincerely,

MUNGIN-
