

## NATIONAL GUARD BUREAU

111 SOUTH GEORGE MASON DRIVE  
ARLINGTON VA 22204-1382

April 6, 2026

Mr. Colin Mitchell  
Governmental Hazardous Waste Branch  
Alabama Department of Environmental Management  
1400 Coliseum Boulevard  
Montgomery, Alabama 36110-2400

Dear Mr. Mitchell:

Enclosed for your review is the Proposed Plan for the Organizational Maintenance Shop 28 located in Mobile, Alabama, dated March 2026. To address the chemical constituents in groundwater exceeding remedial goals at OMS#28, the U.S. Army National Guard recommends Alternative 2, Land Use Controls (LUCS) with Periodic Groundwater Monitoring from the Feasibility Study Revision 1 dated October 2024.

The Army National Guard will hold a public comment period from April 8, 2026, to May 8, 2026, to encourage the public to review and comment on the Proposed Plan. The Proposed Plan has been revised since it was originally submitted for your review in April 2025. Because no official comments have been issued by ADEM on the April 2025 version of the Proposed Plan, request you provide your review of this March 2026 version of the Proposed Plan during the public comment period.

My point of contact for this work is Mr. Paul Gedbaw who may be reached at 571-588-2854 or paul.m.gedbaw.ctr@army.mil. Please reach out to Mr. Gedbaw if there are any questions or concerns.

Sincerely,

Walt Gee  
Cleanup Program Manager  
Cleanup and Restoration Branch  
G-9 Army National Guard
